

DSI[®] Acquires Unibar Inc.

Strategic acquisition of Unibar's barcode and radio frequency identification (RFID) software expands DSI's product portfolio and enterprise client base.

Overland Park, Kansas (June 1, 2009) - [Data Systems International](#)[®] (DSI), a leading global provider of enterprise mobility solutions, today announced the acquisition of [Unibar Inc.](#)

Since 1996, Unibar Inc. has been a leading provider of high performance enterprise barcode and RFID printing software for UNIX, Linux, and Windows providing easy-to-use, cost-effective solutions for hundreds of companies.

"Unibar is a strategic addition to DSI's enterprise mobility solutions," said Matt McGraw, President of DSI. "Unibar's barcode printing and RFID offerings extend our ability to deliver end-to-end mobile solutions to our enterprise clients that can be supported by our offices worldwide, global business partner network, and DSI's 24x7 Global Support Center.

In addition to providing software solutions through traditional methods, Unibar also offers barcode printing solutions through Software-as-a-Service and subscription-based service models to print barcodes directly from the web. Unibar's platform-independent software is Oracle certified.

"This is an exciting milestone for our company, and we look forward to scaling our growth as part of DSI," said Ted Kruse, President of Unibar. "DSI's financial strength, global resources, and our companies' combined development organizations create a powerful dynamic for bringing to market innovative new solutions to meet clients' complex challenges at competitive prices."

DSI will increase investment and development of Unibar's offerings. Additionally, DSI will continue to market and sell Unibar's barcode printing software as a standalone product under the UNIBAR[®] brand, and will also integrate Unibar's functionality into DSI's core software product, dcLINK[®].

About Unibar

[Unibar](#) was founded in 1996 to develop and market barcoding software. Unibar has expanded into the commercial and inventory tracking barcode software arena, and specializes in barcode printing software for multiple operating environments. Unibar's products include: BARCODE 2000 for single-server systems and multiple platforms; BARCODE 2000XML for XML printing without XML printers or programming; BARZ_OUT PRO for adding 1D and 2D barcodes to invoices, packing slips, pick lists, labels, purchase orders and other documents; e-BARZ PRO software and e-BARZ PRO Service for creating barcodes on the web; and WEBLABEL[™] Service for printing barcoded labels from the web.

About DSI

[Data Systems International](#) (DSI) is a leading global provider of enterprise mobility solutions that improve enterprise clients' business results and competitive advantage. DSI's advanced software, hardware, and service solutions mobilize, automate, and enhance processes, operations, and IT infrastructure to improve efficiency, effectiveness, and profitability.
